I certify that VGM indicated ABOVE has been determined according tot SOLAS Convention and requirements. I authorize the forwarder to transmit VGM to the seafreight carrier.

Method #1	Weigh the container after loading. Must only include the weight of the container and it's contents (certified scale).
Method #2	Weigh all cargo and contents (cargo, stowage materials, packing, dunnage etc.) and add the container tare weight as listed on the container itself.

From the 1st of July 2016, the shipper is required to provide VGM information, in accordance with SOLAS regulations. Containers will not be loaded if VGM is not provided on time, and the shipper will be liable for any consequences, expenses, and/or penalties resulting from missing or inaccurate VGM decaration.
